SUPPLEMENTARY INFORMATION: The Office of Local Defense Community Cooperation (OLDCC), in coordination with the other Federal Agencies, delivers a program of technical and financial assistance to enable states and communities to plan and carry out civilian responses to workforce, business, and community needs arising from Defense actions; cooperate with military installations and leverage public and private capabilities to deliver public infrastructure and services to enhance the military mission and achieve facility and infrastructure savings; and increase military, civilian, and industrial readiness and resiliency, and support military families. The Economic Adjustment Data System (EADS) supports this mission by providing a platform for authorized grant applicants to submit their application packages, and for grant awardees to submit quarterly or semi-annual performance reports. We are requesting emergency approval as this system supports all grants management functions for grant applications, active grant monitoring and oversight, and grant closeout activities for OLDCC's portfolio consisting of approximately 225 active grants valued at \$1.4B annually.
